Join the Dementia-CARES Registry!

What is this research study about?

This study is a registry to help connect people to research opportunities on care and caregiving

Who is eligible?

- People with changes in memory & thinking, mild cognitive impairment, Alzheimer's disease or another dementia
- Care partners of people experiencing changes in memory & thinking, mild cognitive impairment, Alzheimer's disease or another dementia

What will you do in this study?

- You will complete a 20 minute interview in person, over the phone, or virtually with a study team member. After enrolling, you will be contacted about other research and educational opportunities
- You may choose to complete optional surveys and request resources
- We will contact you annually to update your information

Dr. Nicole Rogus-Pulia
Co-Lead Researcher

Dr. Andrea Gilmore-Bykovskyi
Co-Lead Researcher

Bonnie Nuttkinson, MS
Research Program Coordinator
